Brainstorm Your Topic

Starting your research with a quick brainstorm session will help you identify:

- keywords to search in the library catalog and databases
- synonyms and alternative words for your topic
- specific ideas or questions you may want to address, that you haven’t yet considered

Create a Concept Map

Questions to ask while brainstorming:
Start Finding Materials

Using Library Resources, find and cite:

1. One **book** on your subject

2. One **article** on your subject

3. One **image** of your subject
