PubMed Search Basics & Tools

Enter each concept you are interested in. After searching, click the **Format** option and select **Abstract**. This facilitates quicker browsing and access to the GET IT @ VCU button.

To keep from missing important articles, think of synonyms or alternative concepts. Link them with **OR** to find articles with either term. In **PubMed**, enclose synonyms in parentheses.

Add additional terms to limit results (age, gender, race, etc).
Click on “Related Citations” to look for other potentially relevant articles.

Restrict by Publication Dates if necessary.

---

Click the title and the GET IT @ VCU button to locate the article.
